### **Independent Auditor's Review Report To the members of Punjab Oil Mills Limited Report on Review of Interim Financial Statements**

#### **Introduction**

We have reviewed the accompanying condensed interim statement of financial position of **Punjab Oil Mills Limited ("the company")** as at 31 December 2021 and the related condensed interim statement of profit or loss and other comprehensive income, condensed interim statement of cash flows, and condensed interim statement of changes in equity, and notes to the financial statements for the six-month period then ended (here-in-after referred to as the "interim financial statements"). Management is responsible for the preparation and presentation of these interim financial statements in accordance with accounting and reporting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on these interim financial statement based on our review.

The figures of the condensed interim statement of profit or loss and other comprehensive income for the quarters ended 31 December 2021 and 31 December 2020 have not been reviewed, as we are required to review only the cumulative figures for the six-months period ended 31 December 2021.

#### **Scope of Review**

We conducted our review in accordance with International Standard on Review Engagements 2410, "*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*". A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### **Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial statements are not prepared, in all material respects, in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting.

The engagement partner on the review resulting in this independent auditor's review report is Shahid Mehmood.

### Directors' Report

#### Operating Performance

In the HY under review (HY FY2022), the company's revenue for the 6 months increased by 55% compared to the same period last year, largely supported by higher selling prices for the period. Prices were increased during the period due to the sharp increase in international and local edible prices. To a lesser extent, volume growth in the main product lines also contributed to top line growth.

We achieved a gross margin of 8% for the period under review, a decline from the 14% margin achieved same period last year. Most of this tightness in margin came in the 2<sup>nd</sup> quarter as the raw material prices surged, sharply increasing our cost of production. Though the selling prices were also increased, the quantum of the same could not be matched to the cost increase due to market competition as the management focused on preserving market share. As a result, despite higher revenue, the gross profit declined by 15% for the HY.

Over-all operating expenses decreased by 19% for the period. Main reason for this decrease was lesser provisioning for advertisement as the management decided to curtail ATL spent in light of lower profitability. The bulk of the reduced ATL is now targeted for the latter half of the fiscal year. Due to reduced expenditure at the operating level, despite a fall in gross profits, the operating profit increased by 13% compared to same period last year.

Finance costs increased due to higher interest rates as well as higher bank borrowings (short term) to finance the increased working capital needs stemming from the big jump in sales revenue; while other charge increased by 5% due to higher provisioning for WPPF and WWF for the period.

Due to the higher profitability at the operating level this period, the profit before tax increased by 5%. However, the taxation figure went up by 28%, due to minimum turn over tax which was applied, effectively imposing an 83% tax rate on the company.

As a result, the company posted a profit after tax of PKR 11.14 million for the 6 months.

#### Outlook for the Year

Going forward we are anticipating a difficult business environment for the company. The concerning factors we had highlighted in our review for the 1<sup>st</sup> quarter have come into play, and we have already seen our margins tighten considerably in the 2<sup>nd</sup> quarter due to sharp rise in input costs. At the same time the inflationary pressure on costs,

## PUNJAB OIL MILLS LIMITED

stemming from increased energy pricing as well as rise in most commodity prices, will continue to impact our profitability.

The international oil markets also continue to be volatile and over-all have persisted with the bullish trend. As such we don't foresee a significant respite in the raw material cost increases in the near future. At the same time there is a drive, based more on political rather than economic grounds, from the government regarding prices of edible oil and banaspati. Together with lackluster demand from the market at such high price levels, and a competitive market place, we will find it difficult to pass on all the cost increase in our selling prices, and foresee reduced profitability going forward. However, in the longer term, as long as we keep up our marketing efforts, stability in the international markets and strength of company brands should enable recovery in margins from current levels.

Hence the current scenario has to be weighed against the need for the company to invest in its profitable brands in the face of tough competition. The management will need to carefully balance the need to trim costs, while remaining competitive in the marketplace by rationalizing its marketing spend. Any investments into capex expenditures will also have to be considered and chosen carefully to maintain our improvement plans without effecting ongoing operations.

### Acknowledgements

We would like to take this opportunity to thank our customers, suppliers and bankers for their continued support and cooperation towards the progress of the company. We hope that this support would continue in the future as well.

We would also like to thank our dedicated and talented team of executives, staff and workers for the hard work put in during the period. We expect continued efforts from our employees to achieve better results in the next three months.

And last, but not the least, the management is thankful to the board for its strong support and guidance in executing the vision and objectives set for the company.
